## Experience the world of Art with Tatjana Tiziana

Tatjana Tiziana, born on 26 July, 1974 is an artist who has her own unmistakable style of surrealistic baroque which she constantly elaborates in the paintings. Her intentions are to show all things from different angles and to unite baroque and surrealistic elements in every sense.

After the school for Applied Arts in Lucerne, she went to the scenery-painting-school in Geneva from 1992 till 1994. From 1994 to 1995, she stayed in Algeria. Since then she has made several mural paintings and ceiling frescos on order and developed her own style, The Surrealistic Baroque.

Tatjana Tiziana also wishes to unite all differences from all over the world because that is the message of surrealistic baroque. Tatjana comments, "Through my art, I try to represent a mystical, unlimited size of the surreal world with unconventional, ideological ideas. My hope is that when you enter this area of creations, you will get a feeling of peace and calm that will transport you into a unique world of time and space."

Tatjana Tiziana transforms enormous surfaces with an inconceivable work strength into marvelous, fantastic worlds and unites baroque with surrealistic moments which the viewer often does not realise at first sight.

But it never stops at a first glance: Someone who has a close look at a picture, a wall, a ceiling, a room painted by Tatjana Tiziana will be completely caught astonished, will be surprised, starts dreaming and will continue dreaming for a long time.

Tatjana adds, "I wish to realise my projects in football grounds, airports, halls, hotels, ships, museums etc."

Whoever watches a painting, a wall, a ceiling or a room painted by Tatjana Tiziana is completely captivated by her work.
